Shaima Alahmadi

Fresh Graduate Software Engineer

0506375845 shemalahmadii@gmail.com LinkedIn Portfolio

SUMMARY

Detail-oriented Software Engineering Fresh Graduate passionate about combining **Front-End Development** with intuitive **UI/UX Design**. Honored as one of the top-performing students nationwide with the **"Jaheziya" Exam Excellence Award by ETEC**. Possesses hands-on expertise in **Digital Transformation & Smart Cities** workflows from a COOP training program at **Madinah Municipality**, skilled in **scalable interface architecture, user-centered design, and modern front-end frameworks**.

PROFESSIONAL EXPERIENCE

Oracle Ambassadors Leader, *Oracle Saudi Arabia* 11/2025 – 06/2026
-Awarded Best Oracle Ambassador nationwide, competing against top candidates across 20 Saudi universities for driving impactful technical initiatives and student engagement.

COOP Trainee | Digital Transformation & Smart Cities with Digital Products Team, *Madinah Municipality* 06/2025 – 01/2026
-Digital Redesign & Development: Engineered and deployed a transactional web portal (Raseel) directly serving +3,000 municipality employees, streamlining daily operations and legacy workflows.

UI/UX Designer Internship, *Tuwaiq Academy & Misk* 08/2024 – 10/2024
-Engaged in intensive user interface and user experience design workflows, creating interactive prototypes and user-centric wireframes.

Head of Activities Team, *University of Hail* 11/2023 – 04/2026
-Led and managed the student activities team, coordinating large-scale campus events,hackathons and improving student engagement metrics.

EDUCATION

Bachelor's Degree in Software Engineering, *University of Hail* 08/2021 – 06/2026
Excellent with Second-Class Honors (GPA: 3.591/4.00)

UI/UX User Interface User Experience BootCamp, *Tuwaiq Academy&Misk* 08/2024 – 10/2024

PROJECTS

SparkHub – Centralized University Clubs Management Platform *(Senior Graduation Project)*
A modular web platform built to digitalize and automate university club operations and event workflows with *Tech Stack: Angular, Django, REST APIs, Python, SQL, Figma.*
- Managed the full SDLC to transform manual university processes into an automated, scalable system.
- Engineered a zero-conflict database architecture with automated testing to ensure system stability.

Raseel Portal – Transactional Web Platform *(COOP Training Project, Madinah Municipality)*
A full-stack transactional web portal equipped with dynamic dashboards to streamline internal operations and serve +3,000 municipality employees.
- Designed & Deployed a Live Split-View A4 Preview Feature: Created a dual-pane editor for official transactions, allowing real-time document layout visualization (with fixed headers/footers) prior to submission - eliminating formatting errors and significantly boosting user confidence.
- Engineered the portal's full-stack architecture, integrating interactive tracking dashboards and dynamic workflow management systems.

AWARDS & MEMBERSHIPS

- **National "Jaheziya" Exam Excellence Award:** Ranked among the top-performing students nationwide in the standardized Software Engineering readiness exam conducted by the Education and Training Evaluation Commission (ETEC).
- **University Academic Excellence Honor:** Personally honored by the President and the Dean of the University of Hail for outstanding academic achievement and national exam ranking.
- **Best Software Engineering Project (100% grade):**Top of the cohort (voted by professors).
- **Best Oracle Ambassador Award:** Ranked 1st nationwide among ambassadors representing 20+ Saudi universities for leadership and technical initiative execution
- **Best Student Award - Positive Behavior:** (voted by professors & colleagues).
- **NASA Space Apps Hackathon:** Environmental Protection Project.
- Volunteered over **532 hours** in various community and technical initiatives.
- Associate Member at **Saudi Council of Engineers**.

CERTIFICATES

- Google UX Design Professional Certificate
- Financial Sustainability Nanodegree by Banque Saudi Fransi bsf
- UI/UX by Misk Foundation
- AWS Certified Cloud Practitioner
- HCIA- IoT Certificate by SDA & Huawei
- Cyber Security Program by NCA & KAUST
- Applications development Bootcamp by Microsoft
- UX Virtual Work Experience By STC

SKILLS

Technical Skills: Angular, HTML5/CSS3, TypeScript, JavaScript, Python, Django, SQL, Figma, Git & GitHub, REST APIs.
Software Engineering Processes: SDLC, Responsive Design, Component-Based Architecture, Azure DevOps, Agile/Scrum, Testing , UI/UX Wireframing & Prototyping.
Soft Skills & Leadership: Strategic Planning, Team Leadership, Problem-Solving, Public Speaking, Project Management.
